

OPmobility appoints Abdul Khaliq to its Executive Committee as head of Innovation & Software

In fast-changing mobility markets, more than ever tech-driven, OPmobility announces the appointment of Abdul Khaliq as Executive Vice President for Innovation & Software and member of the Group's Executive Committee. A German citizen with extensive international experience, Abdul Khaliq has supported automotive and technology companies in their transformation for more than 20 years.

In his new role, Abdul Khaliq will be responsible for implementing OPmobility's innovation roadmap in line with the Group's strategic objectives, and for anticipating market and technology developments. He will supervise the Group's dedicated software development entity, OP'nSoft, and the building of strategic partnerships with research institutes, startups, and innovative companies.

Abdul Khaliq previously held senior positions at Alpine Electronics, ADIT, and Continental, in which he oversaw complex projects for global original equipment manufacturers. Since 2019, he served at Hyundai MOBIS, where he notably led the transition toward software-defined vehicles.

Félicie Burelle, Chief Executive Officer of OPmobility, stated: *"Innovation has always been a cornerstone of OPmobility's history and growth. Today, it is more critical than ever as mobility markets undergo profound transformations to become safer, more sustainable, and increasingly autonomous. On behalf of OPmobility's Executive Committee, I am delighted to welcome Abdul Khaliq to our Group. Abdul brings extensive expertise and a deep understanding of the industry's technological evolution, spanning both hardware and software. We wish him every success as he embarks on this new chapter with us."*

About OPmobility

OPmobility is a world leader in sustainable mobility and a technology partner to mobility players worldwide. Driven by innovation since its creation in 1946, the Group is today composed of four complementary business groups that enable it to offer its customers a wide range of solutions: exterior and lighting systems, complex modules, energy storage systems and battery and hydrogen electrification solutions. OPmobility also offers its customers an activity dedicated to the development of software, OP'nSoft.

With economic revenue of 11.6 billion euros in 2024 and a global network of 150 plants and 40 R&D centers, OPmobility relies on its 38,900 employees to meet the challenges of sustainable mobility.

OPmobility is listed on Euronext Paris, compartment A. It is eligible for the Deferred Settlement Service (SRD) and is included in the SBF 120 and CAC Mid 60 indices (ISIN code: FR0000124570). www.opmobility.com
